

# SIXTH AND RED RIVER

*Moneyball, but for Software Architecture*

✉ [contact@sixthandredriver.com](mailto:contact@sixthandredriver.com)  [www.sixthandredriver.com](http://www.sixthandredriver.com)

**We transform subjective architectural decisions into data-driven insights.**

With 35+ years of enterprise software experience, we combine deep technical expertise with proprietary analysis tools to deliver actionable recommendations that reduce risk and accelerate decision-making.

## CORE CAPABILITIES

**Codebase Evaluation**

2-week comprehensive assessment with actionable modernization roadmap

**Technical Debt Analysis**

Quantified risk metrics with prioritized remediation strategies

**Architecture Review**

Pattern analysis and strategic modernization pathways

**M&A Due Diligence**

48-hour technical risk assessment for acquisition targets

**LLM Integration Strategy**

Strategic AI adoption roadmap aligned with business goals

**Custom Analysis Tools**

Bespoke solutions for ongoing architectural intelligence

## KEY DIFFERENTIATORS

- Knowledge graph-powered analysis
- Proprietary assessment frameworks
- Cross-industry pattern recognition
- Vendor-neutral recommendations
- Quantified technical debt metrics

## IDEAL CLIENT PROFILE

- Private equity firms evaluating targets
- CTOs facing modernization decisions
- Companies in pre/post-merger integration
- Organizations scaling engineering teams
- Enterprises adopting AI/LLM technology

## ENGAGEMENT MODELS

**Fixed-Fee Assessment**

2-4 week sprints  
Defined deliverables

**Advisory Retainer**

Ongoing guidance  
Quarterly reviews

**Project-Based**

Custom tool development  
Specific outcomes

**Ready to make data-driven architectural decisions?**
